

Building Nevada's Brainpower

JOIN THE G² NV STEM EDUCATION COALITION

..." all jobs of the future will require a basic understanding of math and science. The most recent ten year employment projections by the U.S. Labor Department show that of the 20 fastest growing occupations projected for 2014, 15 of them require significant mathematics or science preparation to successfully compete for a job."

Bureau of Labor and Statistics, Fastest growing occupations, 2004-14, <http://www.bls.gov/emp/emptab21.htm>

Gathering Genius, Inc., the 501 (c)(3) nonprofit that brought the Intel International Science and Engineering Fair to Nevada, invites you to join our newest initiative, the G² NV STEM Education Coalition of partners dedicated to improving science, technology, engineering, and math (STEM) education in Nevada. We ask for your support in advocacy, community awareness, knowledge sharing, and planning for our children's future.

Our mission is to promote leadership and collaboration among business, community, education, and government stakeholders to develop nationally recognized science, technology, engineering, and math (STEM) education for ALL Nevada students EC-16.

Our 2011 goals:

- Gather and share data on the state of STEM education in NV as well as exemplary STEM research/programs state and nationwide
- Develop a robust website to improve communications, advocacy, community awareness and support
- Host a 2011 STEM Education Summit of state leaders to create a STEM education plan for Nevada
- Submit the STEM education plan to Governor Sandoval and the NV Legislative Committee on Education
- Use the plan as direction and support to implement our long term goals of building capacity and sustainability for Nevada's STEM education

G² NV STEM EDUCATION COALITION 2011 SUMMIT

The coalition is organizing a STEM education working summit for late fall 2011. Approximately 250 state leaders in education, community, government, and business will be invited to learn about key STEM education issues in the state and make recommendations for developing a statewide STEM Education Plan for Nevada.

OUR VISION

ALL Nevada students are provided the inspiration and opportunity to attain the necessary skills in science, technology, engineering and math to be productive in their personal, work and civic lives. We look forward to the day when Nevada produces the skilled and innovative STEM workforce required to develop an internationally competitive and diversified economy that attracts key industries to our state

OUR CORE VALUES

All students, including women, minorities, and the disadvantaged, deserve access to STEM education and training that helps them reach their life goals.

Key to motivating students to learn and embrace STEM is by providing multidisciplinary experiences that promote curiosity, exploration, and innovation.
